## **Personal statement**

As a QA engineer with a strong foundation in physics from my undergraduate studies, I bring a blend of technical knowledge and inquisitive nature to my role. My physics background gave me a solid understanding of mathematical and scientific principles, which I find invaluable in both manual and automated software testing.

I approach my work with the curiosity of a scientist, always eager to delve into the intricacies of how and why things work the way they do. This curiosity extends beyond mere functionality, I am keen on understanding the broader impact of the products I test, striving to ensure they genuinely benefit the end-users.

Empathetic and caring nature, combined with my technical skills, makes me a valuable team player. I thrive in environments where I can collaborate with diverse teams, sharing my findings and learning from others, all while working towards enhancing products that make a difference in people's lives.

# **SKILLS & QUALIFICATIONS**

## **Technical Skills:**

- Proficient in **TS/JS** & **Python**
- Framework development using Playwright/CodeceptJS, POM and Cucumber BDD
- Framework development using Appium/CodeceptJS, POM and Cucumber BDD
- Non-functional testing using k6/JS
- Security testing: OWASP Top 10 vulnerabilities for Web and API
- Competent in SQL queries and database testing
- Knowledgeable in **Docker & Kubernetes** deployment and management
- Expertise in web scraping with **Scrapy** & **Python** integrated with **Playwright** automation
- Proficient in setting up and managing CI/CD pipelines with Github Actions
- Experienced in utilizing AWS for cloud-based solutions and services

# **Previous Work Experience**

May 2023 - Nov 2023: QA Engineer at Mindera (https://mindera.com)

- Project: Web Car auction microservice app with .NET, NextJS, Docker & Kubernetes, RabbitMQ with Duende IdentityServer paired with mobile app in React Native
- Key Responsibilities: Integral QA team member for the development of a car auction software solution, encompassing web, mobile (iOS/Android), and backend components.
- **Framework development & design** using POM design pattern/Cucumber BDD with Playwright/CodeceptJS for web application testing.
- **Framework development & design** using POM design pattern/Cucumber BDD Appium/CodeceptJS for cross-platform mobile app testing.
- Executed cross-platform functional, UI/UX, compatibility, and performance testing using K6
- Implemented CI/CD pipelines using Github Actions across all environment stages
- Conducted thorough backend testing, including individual microservice logic, API functionality (HTTP methods, data validation, authentication/authorization), integration, and database interactions.
- **Assessed application security** through vulnerability scanning and penetration testing techniques OWASP top 10 Web and API
- Tested containerized deployments within a Kubernetes environment, verifying configurations, scaling, and rollback procedures
- Collaborated with developers to identify and resolve defects, maximizing product quality.

### \_\_\_\_\_

# <u>Jul 2022 - May 2023 : QA Automation Engineer at Nagarro (https://nagarro.com)</u>

**Project:** Web UI tool that medical researchers are using for analyzing, monitoring, reporting on data related to Alzheimer

### **Key Responsibilities:**

- Developed a custom automation framework for web UI testing from the ground up, leveraging **Playwright** and **TypeScript**, and incorporating a Behavior-Driven Development (BDD) methodology with Cucumber and Gherkin syntax. Additionally, employed the Page Object Model (POM) design pattern for ease of maintenance
- Responsible for ongoing framework enhancements and adjustments as required
- Created and updated both manual and automated test cases

\_\_\_\_\_

# May 2021 - June 2022 : QA/QC Engineer at Gamemine (https://gamemine.com)

**Project: Amen -** Christian meditation application + CMS

- Test case creation and execution for the mobile application under test

 Maintaining and modifying existing UI & API automation test cases in Selenium Webdriver with Python

- Manual API testing using **Postman** 

-----

May 2020 - Dec 2020 : Lead QA Game Tester at Quantic Lab

(https://www.quanticlab.com)

Project: Cannot disclose due to NDA

Oversight, mentorship and daily task allocation over a team of 15 QA's consisting of junior and mid level

- QA mentorship and bug review
- Test case maintenance/modification
- Daily build installation on PS4/PS5/Xbox One and Nintendo Switch
- Bug reporting and reviewing
- Daily activity reports

\_\_\_\_\_

April 2019 - Dec 2019: Lead Mobile QA Game Tester at Gameloft - London office (https://www.gameloft.com)

Daily task allocation, bug reports verification for a team of 5 QA's consisting of mid level QA testers

- Test case maintenance/modification and review based on the feature under test
- Daily activity reports
- Weekly calls with gamers designers/dev for future features coming to test

\_\_\_\_\_

Dec 2017 - April 2019: Senior Mobile QA Game Tester at Gameloft - London office

(https://www.gameloft.com)

<u>Projects</u>: Asphalt 8, Asphalt 9, Gangstar Vegas, Gangstar New Orleans, Modern Combat 5, March of Empires, Dragon Mania Legends, Disney Magic Kingdom, Iron Blade, City Mania, Dungeon Hunter 5, My Little Pony, Despicable Me 2, Spider Man Unlimited, Asphalt Xtreme, Sniper Fury, Blitz Brigade, Gangstar Vegas, LEGO Legacy, Modern Combat Versus, Paddington Run, Order&Chaos 2, Zombie Anarchy

- Test case creation execution
- Bug reporting

\_\_\_\_\_

Feb 2016 - Dec 2017 : Mobile QA Game Tester at Gameloft - London office (https://www.gameloft.com)

<u>Projects</u>: Asphalt 8, Asphalt 9, Gangstar Vegas, Gangstar New Orleans, Modern Combat 5, March of Empires, Dragon Mania Legends, Disney Magic Kingdom, Iron

#### **Blade, City**

Mania, Dungeon Hunter 5, My Little Pony, Despicable Me 2, Spider Man Unlimited, Asphalt Xtreme, Sniper Fury, Blitz Brigade, Gangstar Vegas, LEGO Legacy, Modern Combat Versus, Paddington Run, Order&Chaos 2, Zombie Anarchy

- -General test case execution and bug reporting at different test levels (exploratory, performance, smoke, regression)
  - -Network connectivity and multiplayer testing
- Memory stress testing and interrupts
- IAP(in-app purchases) and ad campaign testing through CRM tools

## **EDUCATION & TRAINING**

#### Romania:

**High-school**: Colegiul Tehnic Aiud - Alba - Romania - Sept 2007- July 2011 **University**: Bachelors at Babes Bolyai Technological Physics, Cluj Napoca - Sept 2015

#### <u>UK - Birmingham</u>

**University:** Arden University - Computing - started Sept 2023

### **Language Skills:**

• English: C1 (reading – writing – conversation).
